Erick Kenneth French is a Licensed Clinical Social Worker and Advanced Clinical Hypnotherapist. He is the founder of One Awareness Counseling in Saint Louis, Missouri, where he has maintained a thriving private practice for the past 14 years. Erick teaches that spiritual awakening begins with paying attention to and successfully receiving the messages of feelings, and that restoring and retaining our capacity for empathy is critical to personal fulfillment and, ultimately, the survival of humanity. Erick created *Iphelia* to help children retain their capacity for empathy and help adults reclaim theirs.
